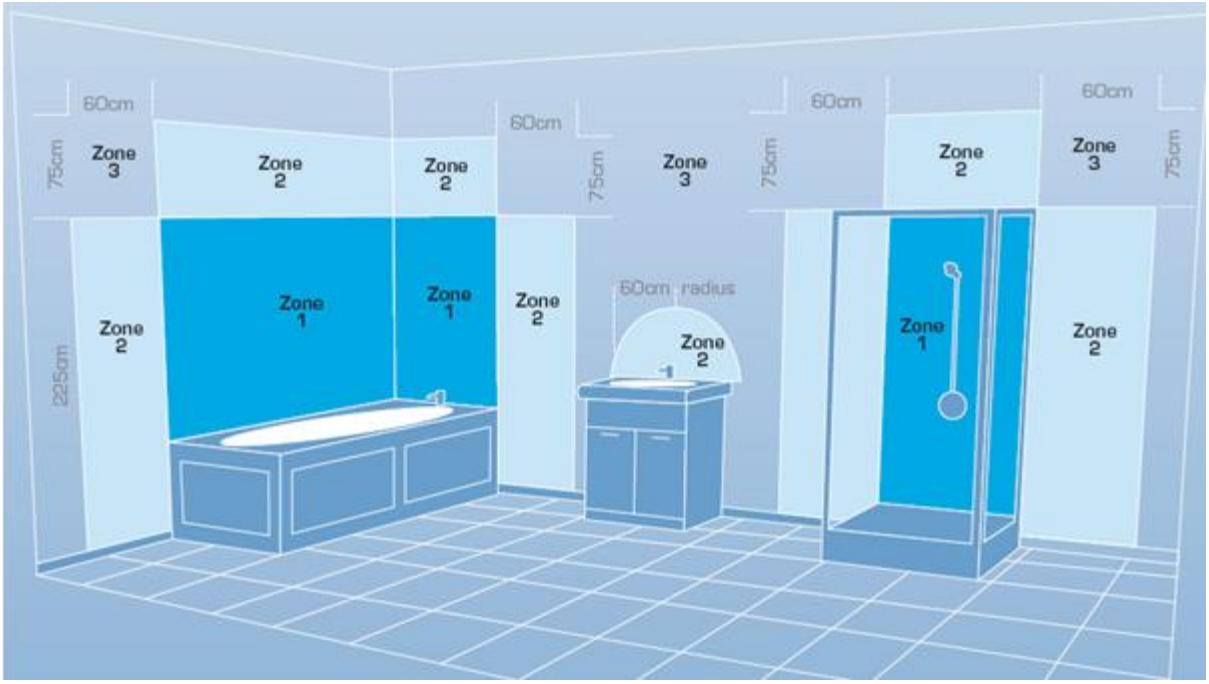
E&OE: To the best of Victorian Bathrooms' knowledge, the information contained in this document is correct.

IP44 Rating Explained

Victorian Bathrooms has selected a range of quality light fittings to enhance your bathroom. There are important regulations concerning the installation of electric lamps in the bathroom, so please read the information on IP ratings and classifications.
Regarding Wattage, never exceed the maximum Wattage as indicated on the bulb holders.

We recommend that these light fittings are installed by a qualified electrician in accordance with current wiring regulations.



Luminaires – bathroom lights or mirror-and-light combinations – are assigned a certain "IP rating" which indicates how much protection they provide against ingress of water and other particles. Each zone has a minimum IP requirement that must be met if a fitting is to be installed in this area.
The zones are numbered accordingly to the distance away from a source of water.

The zone system
For the purposes of safe lighting, the bathroom or shower area is divided into ZONES.
The zones are numbered according to the distance away from a source of water.

Zone 0	**Suitable for Zone 0** (IP68 submersible to 9 metres) The ultimate in watertight fittings. Suitable for saunas, steam rooms or to be mounted underwater (down to 9 metres).
Zone 1	**Suitable for Zone 1** (IP65 jet proof) Should be fitted where the fitting may be subjected to a jet of water, for example from a shower handset.
Zone 2	**Suitable for Zone 2** (IP44 splash proof) Should be fitted wherever the fitting may be splashed. Anywhere within 0.6 metres of a basin or similar water source.
Other Areas	**Other Areas** Suitable for Other Areas For all other areas where jets or splashes of water will not occur.

Vipp Lighting

Vipp is a 3rd generation family-owned company, born out of a need for functional tools in the professional market. Starting when Holger Nielsen created the iconic Vipp bin to now being run by Holger's daughter and her two children, Vipp has developed an extensive range of high quality homeware products with emphasis on their long-term ability to provide better every day experiences.

The Vipp wall light is as versatile as it is functional, shining light on every space. A perforated lamp shade in powder-coated steel combined with matte glass provides a soft diffusion of light.

Available in white or black, these Vipp wall lights are stylish throughout the household. As they are rated IP20, they are perfect for the bathroom environment as long as they are installed outside of Zone 2, therefore a distance further than 600cm from a basin or similar water source (please refer to page 2).

Vipp Wall Light - black

This light is IP20 rated & therefore requires an installation outside of Zone 2 in a bathroom.
Supplied with an E12 light bulb however is compatible with an E12 or E14 bulb.

Dimensions:
Height: 195mm
Projection: 185mm
Diameter of shade: 110mm

Code: 43105244
Price: R8 500

Vipp Wall Light - white

This light is IP20 rated & therefore requires an installation outside of Zone 2 in a bathroom.
Supplied with an E12 light bulb however is compatible with an E12 or E14 bulb.

Dimensions:
Height: 195mm
Projection: 185mm
Diameter of shade: 110mm

Code: 43105243
Price: R8 500

Cleaning of powder-coated surfaces:
Keep powder-coated surfaces clean & dry.
For light cleaning (e.g. of grease stains), use a lint-free cloth or a soft brush with glass cleaner. Wipe off with a lint-free cloth. For heavier cleaning, use a lint-free cloth or a soft brush with warm water & a mild detergent (e.g. Sunlight Liquid).

Guild Lighting

Placing importance on beautiful, well-made objects that can be used in everyday life, the Guild collection takes inspiration from the Arts and Crafts movement of the late 19th century.

Elevate your traditional bathroom design with the Guild Wall Lights. This elegant design perfectly captures the classic design style, blending this with modern features. The soft curvature of the light ensures this design harmonises with the rest of the Guild accessories range, while the square backplate creates a subtle contrast for a sophisticated bathroom design.

New

Guild Light
