Samuel Heath

Established in 1820, Samuel Heath is an English manufacturer that has become internationally renowned for innovation and quality.

The Style Moderne Collection

Samuel Heath is home to many exceptional collections of bathroom tapware, one of them being the Style Moderne collection.

Inspired by the grace and glamour of the Art Deco period of the 1920's and 1930's, Style Moderne is a highly distinctive collection of taps, showers and wonderfully complementary bathroom accessories. The elegance of this collection is an authentic reflection of the era, its individual identity secured with a dramatic and courageous reinterpretation. Defined lines, faceted spouts, enhanced geometric shapes and stepped details all add a classic feel, yet with contemporary overtones. Black chrome levers and cross top controls, together with black or white ceramic accessories, are just some of the features to be admired.

With the Style Moderne collection, Samuel Heath has reinterpreted one of the most dynamic and influential design periods in history.

Please note that the taps in the Style Moderne collection are available in chrome metal cross handles, black gloss metal cross handles, chrome metal levers and black gloss metal levers.
The price is identical regardless of tap selection.

Black lever

Special Finishes

The Style Moderne collection is available in several different finishes including the following however please note that the **products in this brochure are priced in the chrome finish** – please enquire for special finish prices:

Chrome plate

Polished nickel

Raw brass

Country bronze

Please be aware that Samuel Heath products are by special order only and non-returnable.

We recommend visiting one of our showrooms to view selected samples and finishes before placing your order, after which a lead time will occur.

Please note that with any special finish, regular cleaning will maintain the finish otherwise it will develop its own natural patina with its own individual character over time. Due to the variations in raw material composition, there will always be a degree of natural variation in the shade between different components.

Bath Mixers & Fillers

Prices are for chrome finish. Special finish prices are available on request.

Bath mixer, pillar mounted

Dimensions:

Height (to top of hand shower): 279mm

Distance between base centres: 180mm
