Manhattan Basins

The Manhattan basin reflects a style that is urban yet classic with its industrial stand that is softened by the gentle curves of the matte white basin.

Customization:

These basins are available in many variations – as a single or double basin, with stand or wall-hung, shelf or no shelf, and the stand is available in any of our bespoke finishes. Please refer to the *Bespoke Tap Finishes* brochure for more details.

The basin and shelf are supplied in a matte white finish only, and are available in 8 standard matt colours or in a custom colour of your choice. Alternatively a marble effect is available too. The colours permeate throughout the product and are not sprayed on the exterior surface.

For standard matt colours, an additional 30% charge will apply to the basin & shelf (code: colour30). For a custom matt colour, an additional 60% charge will apply to the basin & shelf (code: colour60). For a matt marble effect, an additional 60% charge will apply to the basin & shelf (code: marble60).

Cloakroom Basins

Cloakroom basins are designed to be compact and small so that they can fit into tight spaces. It is still important however to ensure that whilst the basin may be little, it nonetheless has a lot of style.

Arcade cloakroom basin

This retro cloakroom basin is wall hung and has a unique Belle Époque appearance.

Guild Basins

The Guild Collection by Burlington takes inspiration from the Arts and Crafts design movement of the late 19th century. A defining feature of Arts and Crafts design is a focus on skilfully made products that last a lifetime, with careful attention to the materials used.

Guild's ceramic range of basins, is a perfect example of this ideology. Made with the highest quality ceramic materials, the guild ceramic range is built to stand the test of time.
