Burlington Heated Towel Rails

The electric heating kits are IP44 rated and the heated towel rails can be installed in Zone 2 (i.e. next to the bath or shower) however the connection box must be outside Zone 2 (i.e. more than 600mm beyond the bath or shower). We recommend the installation of a thermostat.

We furthermore recommend the installation of a regulator / indicator light switch with the Burlington HTR in order to reduce the heat in the rail, should this be required, and to indicate that the HTR is switched on. This regulator / indicator light switch should be installed outside the bathroom.

Trafalgar Heater Towel Rail

Made from steel and chrome plated.

Dimensions:

Width: 642mm

Height: 950mm

Wattage: 300W

White Insert

Code: 12673100

Price: R18 995

Black Insert

Code: 12673200

Price: R19 995

Regulator

Code: 12673501

Price: R 825

Berkeley Heated Towel Rail

Made from steel and chrome plated.

Dimensions:

Width: 642mm

Height: 970mm

Wattage: 200W

Berkeley

Code: 12673400

Price: R15 400

Regulator

Code: 12673501

Price: R 825

Clever Heated Towel Rail

Made from steel and chrome plated. Wall Mounted.

Dimensions:

Width: 642mm

Height: 720mm

Wattage: 164W

Clever

Code: 12673300

Price: R16 300

Regulator

Code: 12673501

Price: R 825

Electrical installation:

**Radiator valves (decorative)
& sealing**

Codes: 12673600 & 12673601

Price: R1 400 / pair sealed

Hydronic installation:

Radiator valves

Code: 12673600

Price: R1 150 / pair

Electrical installation:

Elbow for wall wiring

Code: 12673701

Price: R 795

Jeeves Heated Towel Rails

Jeeves heated towel rails are manufactured in 100% stainless steel and are complemented by a range of finishes.

The rails are filled with thermal fluid that is heated by an element and designed to air and dry towels. Fluid filled rails are safe as the circulation ensures an even distribution of heat, preventing a build up of dangerous hot spots beneath the towel.

The upper burn threshold for skin is 70 degrees. The Jeeves built-in thermostat automatically maintains the towel rail surface temperature below this threshold. A benefit of fluid filled rails is that, if required, elements can be replaced without removing the rail from the premises.

The Jeeves heated towel rails are available ex-stock in polished stainless steel.

Should it be required, alternative finishes are available upon order and these may vary in price:

Brushed stainless steel, powder-coated white or black, 'antique rose gold', 'yellow gold' or oil-rubbed bronze (brass effect).

Model C

Ladder 3-tier, 12 bar.

Either straight or curved options.

Dimensions:

Width: 520mm

Length: 915mm

Wattage: 150W (polished stainless steel)

Straight Code: 73C520S06

Curved Code: 73C520C06

Price: R8 700

Model D

Ladder 4-tier 20 bar.

Either straight or curved options.

Dimensions:

Width: 520mm

Length: 1340mm

Wattage: 220W (polished stainless steel)

Straight Code: 73D520S06

Curved Code: 73000401

Price: R10 665

Model E

Ladder 2-tier, 12 bar.

Either straight or curved options.

Dimensions:

Width: 520mm

Length: 790mm

Wattage: 135W (polished stainless steel)

Straight Code: 73000506

Curved Code: 73000501

Price: R8 195

Jeeves Heated Towel Rails

Model H

Hand towel heater, 7 bar.

Either straight or curved options.

Dimensions:

Width: 520mm

Length: 460mm

Wattage: 60W (polished stainless steel)

Straight Code: 73000706

Curved Code: 73H520S06

Price: R6 075

Model I

Basic 4 bar towel warmer only.

Dimensions:

Width: 520mm

Length: 790mm

Wattage: 60W (polished stainless steel)

Code: 73000906

Price: R5 345

Freestanding Conversion

With external wire and plug, making it mobile and not only for use in the bathroom.
