VICTORIAN BATHROOMS

— EST. 1989 —

In celebration of Victorian Bathrooms' 35th birthday, we introduce the bespoke *Heritage Collection*, a locally handcrafted tapware range that blends authenticity and traditional South African artistry, transforming tapware into functional art – an ode to our heritage and a celebration of the human touch.

The Heritage Collection caters to those seeking a rustic and robust tap range. It is designed for clients who value the raw beauty of metals that gracefully develop a rich, natural patina over time.

As each item is handcrafted, dimensions may vary slightly from what is stipulated.

Bespoke Finishes

Polished brass

Brushed brass

Aged brass

Polished nickel

Brushed nickel

Aged nickel

The Heritage Collection is comes standard in polished brass however it can be manufactured in a variety of other special finishes including:

Brushed brass

Aged brass

Polished nickel

Brushed nickel

Aged nickel

There will be an additional charge of 10% for finishes other than polished brass.

Special finishes expose the raw metal which, being unlacquered, will naturally age and develop a patina, showcasing the distinctive features of each tapware product.

This collection celebrates the metal's natural state and its inherent charm, appreciating how it develops character and ages uniquely with each item.

Please note that the Heritage Collection is made upon order and a lead time will incur.

Please refer to our brochure, 'Bespoke Finishes' for more information and speak with a sales consultant before ordering.

Globe Taps

with Heritage levers

Globe taps were traditionally installed on the inside of a bath. The Heritage Globe tap is extremely versatile in that it can be installed the traditional way on the bath, or it can be wall mounted at a basin or sink with or without the extension options, or pillar mounted on the upstands.

Prices are for tapware in a polished brass finish.

Globe taps

Sold as a pair.
