# Samuel Heath

Established in 1820, Samuel Heath is an English manufacturer that has become internationally renowned for innovation and quality.

## The Fairfield Collection

Samuel Heath is home to many exceptional collections of bathroom tapware, one of them being the Fairfield collection.

Fairfield taps, showers and bathroom accessories are a balanced combination of the diverse formal design influences of the Arts and Crafts and Aesthetic Movements which flourished between 1880 and 1910.

These movements are synonymous with a desire to create beautiful designs for the home, made with the finest materials and craftsmanship – an ethos shared by Samuel Heath. The careful proportioning of Fairfield reflects the era-inspired qualities, whilst design options are enhanced by a choice of cross top controls or levers available in wood, ceramic or metal.

This range is equally at ease in a contemporary bathroom setting as it is in a classic one.

**Please note that the taps in the Fairfield collection are available in cross handles, metal levers, ceramic levers, and wood levers.**

The price is identical regardless of tap selection.

Cross handle

Metal lever

Ceramic lever

Wood lever

## Special Finishes

The Fairfield collection is available in several different finishes including the following however please note that the **products in this brochure are priced in the chrome finish** – please enquire for special finish prices:

Chrome plate

Polished nickel

Raw brass

Country bronze

**Please be aware that Samuel Heath products are by special order only and non-returnable.**

We recommend visiting one of our showrooms to view selected samples and finishes before placing your order, after which a lead time will occur.

Please note that with any special finish, regular cleaning will maintain the finish otherwise it will develop its own natural patina with its own individual character over time. Due to the variations in raw material composition, there will always be a degree of natural variation in the shade between different components.

# Bath Mixers & Fillers

Prices are for chrome finish. Special finish prices are available on request.

## **Bath mixer, pillar mounted** **With levers**

### Dimensions:

Height (to hand shower attachment): 286mm
