Landmark Industrial
Bold and authoritative with
precisely matched detailing

Landmark Pure
Minimal embellishment and
deceptively simplistic composition

Samuel Heath

Established in 1820, Samuel Heath is an English manufacturer that has become internationally renowned for innovation and quality.

The Landmark Collection

Samuel Heath is home to many exceptional collections of bathroom tapware, one of them being the Landmark Collection.

Landmark is created on the classic Bauhaus principles of simplicity and elegance of design. The intelligent use of materials, finishes and textures combined with pure understated form ensures that this collection will not only complement but enhance a diverse range of interior styles and settings.

The Landmark Collection is made of two ranges – Landmark Industrial and Landmark Pure.

Landmark Industrial embodies 'industrial chic', exposing all that lies beneath to achieve a raw, edgy style. It is bold and authoritative with precisely matched detailing. Celebrating engineering ingenuity, this range juxtaposes the raw with the refined, and the sleek and modern with the vintage and classic.

Landmark Pure is neutral and balanced with concise and direct lines. By size and proportion, Pure displays and celebrates elements of its functionality achieved through a harmony of materials, finishes and exquisite detailing.

Industrial cross-handle

Industrial lever

Pure cross-handle

Pure lever

Special Finishes

The Landmark Industrial and Pure products are available in the following finishes:

Chrome Plate

Polished Nickel

Urban Brass

City Bronze

Matt Black Chrome

Please be aware that Samuel Heath products are by special order only and non-returnable.

We recommend visiting one of our showrooms to view selected samples and finishes before placing your order, after which a lead time will occur.

Please note that with any special finish, regular cleaning will maintain the finish otherwise it will develop its own natural patina with its own individual character over time. Due to the variations in raw material composition, there will always be a degree of natural variation in the shade between different components.

Landmark Industrial Bath Mixers

Single lever bath filler

A wall mounted bath filler with engraved concealing plate. Available with a single lever only.

Dimensions:

Plate width: 220mm

Plate height: 110mm
